

Our IMPACT...at-a-glance

# Genesis Institute

## Who Are We?

Genesis Institute is a non-profit organization that provides care and cure for human souls. Practically speaking, we do biblical counseling, mentoring and training. We work with individuals, businesses and churches. We cultivate vital skills and practices necessary for relating well to God and people throughout life's challenges.

## Last year...

We trained and helped over 100 individuals and couples in a variety of classes

We provided over 4200 hours of individual, pre-marital, marital and family counseling

We wrote off more than \$45,000 in insurance discounts

We helped over 490 'souls' to move towards healing

We partnered with over 100 local churches and businesses

We gave discounts of more than \$87,000 for those seeking counseling without insurance

In order to continue impacting this community, we need your support. Together, we can make a difference!

# What People Are Saying about Genesis

## Our Counseling

"To have intentional time to enter into my brokenness with a counselor who evidently loves Jesus, in a safe environment, has been invaluable and life changing. **The deepest love and thanks for [my counselor] and Genesis"**

"Counseling is a courageous decision. The bravest people I know are those willing to take a look at the 'messiness' of life and work through it. For whatever you're facing, **be encouraged that this is a brave and bold decision towards freedom and the abundant life the Lord has won for us."**

## Our Core Concepts in Biblical Mentoring Class

*"I found the [Core Concepts] class inspiring, convicting and encouraging to trust in a good God who is at work in my life, and in the lives of people I care deeply about. I felt **personally challenged** to allow Christ more and more access to my heart specifically as it relates to being a woman of God."*

*"I would highly recommend this class for those seeking to know God more deeply. It is the most relevant class I've ever taken and the best mentoring and counseling training I have ever received. Anyone who desires to **engage people well** and listen to stories within God's design for relationship would be a great fit."*

## Our Spiritual Formation Classes

*"There is a definite need for this course. I found it exciting that it was just for women. I know so many who could benefit from the truths that were shared. **Some struggles are unique to women** and this created a space to figure out who the Father is to each of us individually, to realize **we all face suffering and hardships** and the need for us to get closer to the One who desires a relationship with us and is the 'Lifter of Our Heads'."*

*"**The workshop has been life-changing!** The timing was perfect as I had recently reached a point of burn-out. All the concepts taught in the class were exactly what I needed for a life change - a redirection of my motivation for ministry. I would recommend this training for others. I'm waiting for Terry to write his book so that I can share this information. In the meantime, I will encourage others to take the class for themselves."*

## Our Courageous Parenting Class

*"**I'm so grateful to the instructors for opening their hearts and taking us through the course step-by-step.** By using the book and helping us relate the information to our own special situations, I learned a great deal. I may have felt a little embarrassed at first, but I never felt judged. Not feeling judged really helped me to be more open to all the new information."*

*"The insights and revelations a parent receives regarding their adolescent children is amazing and truly worth the time and effort. Many of the issues that we confront regarding our children are based on learned behaviors **from our childhood** and upbringing that we bring to the family. Each parent brings a different "set" of pre-conceived ideas on how to raise children....**We never realized**, or mostly I never realized, how our different upbringing would affect our parenting styles. **What a revelation!**"*
