

A New Class—Just For Women!

Wonder of Woman, a Genesis Institute course.

Through the years, there have been many requests for something specifically tailored for women. Here it is! This is a 12-week course offered each spring and open to women eighteen years old and beyond.

Have you ever wondered why God (who never does anything by happenstance), created men and women? Have you wondered if your life matters? Is your particular story important? Is it possible to recover - even thrive - in the aftermath of devastating experiences? Our culture is enthralled with all things beauty. Does God care about that? Is it possible to really, truly experience rest in our day and age? What does that look like? We will be tackling these questions and more.

Sprinkled throughout the course you will have an opportunity to hear other women's stories of struggle - and victory. I would love to wrap up the class with a 1/2 day retreat, depending on the interest of class participants. God calls us to community. Mother Teresa said that "loneliness is the leprosy of our day". One of the highest desired outcomes of this course is the birth of an ongoing small group where we can continue in deeper connection with each other and our Lord; where we can support, encourage and admonish one another. "Iron sharpens iron".

The first class is on Tuesday, March 7, 2017 at the Genesis office. We will meet every Tuesday from 6:30-8:30pm. Class size is limited so best not to dally. Go to our website under the 'Spiritual Formation' training tab to REGISTER.

Hope to see YOU!!
