

## A New Year—A New Opportunity To Offer Hope!

Desmond TuTu once described hope as “being able to see there is light despite all the darkness”. It is the ministry of Genesis Institute to shed light on needs that are normally left in the shadow. Day in, day out we have the privilege of being invited into the lives of hurting people in our community. Our passion is to help provide hope, healing and care with our Biblical counseling and classes.

Each transformed life offers more light in the darkness. A ripple of these changed lives is spreading throughout the country. I truly feel it is God’s gift to be a part of this, and we are deeply grateful for your part too.

Please consider making Genesis a part of your 2017 giving with a monthly gift. Your gifts enable us to care for each person God brings through our doors!

**Thank You for providing hope in this New Year!**

*Linda*
